CALIFORNIA

California is alive with activity in parapsychology, metaphysics and other significant areas of human growth potential. Uni-Com Foundation directly supports this activity by serving as its information hub.

The major service which the Foundation now provides is UNI-COM GUIDE, a **monthly** calendar of spiritual and personal awareness activities scheduled throughout California. This popular publication allows "new age" organizations to announce in advance the dates and contents of their meetings to a large and interested audience of individuals and other organizations. The cost of publishing UNI-COM GUIDE is supported by paid advertising and by modest subscription fees of $3/year, or $5/two years.

In the process of gathering information for UNI-COM GUIDE, the Foundation becomes aware of leaders who are available for service in counseling, speaking, teaching, research, seminars and retreats. Frequently this awareness, discreetly coupled to organization needs for such talent, results in effective new relationships. Uni-Com Foundation does not solicit funds for this and other informal services but is supported by those who see the value of such work and voluntarily wish to become a sustaining part of it.

Uni-Com Foundation is a non-profit and non-denominational corporation which lovingly encourages the achievement of a loving society. Uni-Com also offers two additional services of a mail order book catalogue and a small monthly pamphlet of articles by Metaphysical teachers.

PRAYER

Paramananda

O Thou Supreme Spirit! Make Thy Presence felt in my heart, in my thought, in my whole being;

That I may be filled with Thee, leaving room for naught else.

Thou art the giver of all joy and all blessing.

Thou art ever unchanging; without beginning or end.

Thou art all-pervading, all-seeing. Thou perceivest my innermost thoughts.

Thou knowest all my imperfections, all my shortcomings; but Thou art full of love.

Through Thy love and compassion, do Thou kindle in my heart the true fire of spiritual devotion;

That all my impurities and unworthy feelings may be burned to ashes.

Help me to lift my thoughts from fleeting things and fasten them to the Infinite, All-abiding Spirit.

Free my heart from the weight of worldly cares and make it so pure, so full of love, that it may be a fitting altar unto Thee.

Free my mind from all doubt and delusion, that it may learn to trust wholly in Thee and to abide by Thy will.

O Thou Infinite Being! Reveal unto me Thy reality and grant that I may never lose sight of Thee.

Thou art the Source of all strength and wisdom, and in Thee alone shall I find true peace and freedom.

FROM THE DIRECTOR

We are glad to see the tremendous steps being taken to bring the scientific and spiritual communities in harmony with each other. Many groups that have been geared only to scientific "data and fact" are now exploring new "terms" and methods of information that until this time has concerned only those interested in spiritual growth and potential. A new consciousness and acceptance seems to be being developed that will bring about a wider knowledge of the paranormal, of the unexplained side of life. We urge all groups to communicate more, let their work be known. Only in this way can be help both spiritual and scientific community. Much research is being done in the fields of healing and related medicine, meditation, in fact in all fields. We encourage all to join in and take part. Let your "light" shine in, bringing about the new age consciousness.

Instead of comments about what is going on in the field, just a comments at this holiday time, to ask each and every one to join in the joining together of brother to brother, of man to man. Let all of us show the world that we know what the term brotherly love means!

NOTICE --- Location and Time Errors -- Occasionally organizations change locations or dates of events they are sponsoring after The Guide has gone to press. When this happens, corrections can not be made in The Guide. For the few instances that have occured in the last couple of issues we certainly sympathize with those who were inconvenienced. However, we hope the irritations of the inconviences will be somewhat relieved by understanding the cause.

Here is a book as complex and individual as you are. It's not light reading because it's your life, your astral biography, from the details of your inner feelings to your outermost ambitions.

Sun-Moon polarity, as the connection between conscious drives and unconscious feelings, is discussed at great length.

The ascending sign and its rulership position is interpreted as your personality, as your approach to life. Each house of the zodiac is described in terms of planets, rulerships and aspects.

This is not a vague report based on generalities. From your exact time, day, year and place of birth our IBM 370-155 sorts out 24,000,000 bits of astrological information. The result is a 12,000 word personal biography revealing secrets that even your closest friends would not dare talk about.

How is this possible? An astrologer does basically the same thing, but it takes longer and costs more. The computer is simply a memory bank. Only the information that applies to you and only you is drawn from the bank.

All this is yours for only $10. It's the best buy there is in computerized horoscopes. Plus a money back guarantee if your Astral Portrait isn't what you expected.

Think of it as a reference book, to be studied from time to time. We've got the best available, anywhere, at anytime... and at any price.

The Art of The Cosmos

The Art of The Cosmos, is a beautiful experience of blending colors and images that touch a deep spiritual awakening within each student. Work is done with the hands, no brush or pallet, using techniques that have been developed over many years. When the hand comes in contact with color a very strange and wonderful feeling is in store for the student . . . Classes are usually conducted with a background of music. The student has the opportunity of learning self awareness, creativity and spiritual advancement through these techniques!
